Five directions. One shared name.

Equal conditions. Black and white. No logo, color or typography approval.

A SACRED SPACE

Open Crossing

Tabernacle
of Praise

A shared cross-shaped interior, held open by two folded boundaries.

B DWELLING AND EXPRESSION

Passing Shelter

Tabernacle
of Praise

The sheltering surfaces themselves turn outward in expression.

C CONTEMPORARY ECCLESIASTICAL EMBLEM

The Joined Roundel

Tabernacle
of Praise

A crafted TP identifier held within an open enclosing roundel.

D CUSTOM TYPOGRAPHIC IDENTITY

Open Counter

Tabernacle
of Praise

The complete name, with a repeatable grammar of custom counters.

E CADENCED WALL REIMAGINED

Opening Measure

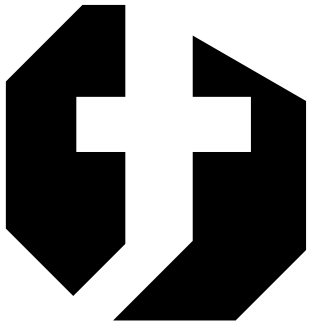

Tabernacle
of Praise

A joined architectural face develops cadence through its openings.

Meaning, construction and open questions follow.

SACRED SPACE

A Open Crossing

POSITIVE

REVERSE

Tabernacle of Praise

THE IDEA

Two folded boundaries hold an open cross-shaped interior. Christian gathering is visible; praise is a quieter association with opening and response.

THE OPEN QUESTION

The dense faceted form can feel institutional; the lower opening may read as a chevron. Praise is less immediate than the Christian sacred-space reading.

CONSTRUCTION & NEGATIVE SPACE

Two filled boundaries give the crossing its shape. The lower threshold remains open.

First folded boundary

Answering boundary

Shared crossing and thresholds

INITIAL CONSTRUCTIONS · 4 DISTINCT PREMISES

ALTERNATIVE PREMISE

A2 · Resonant Chamber
ALTERNATIVE PREMISE

A3 · Common Centre
ALTERNATIVE PREMISE

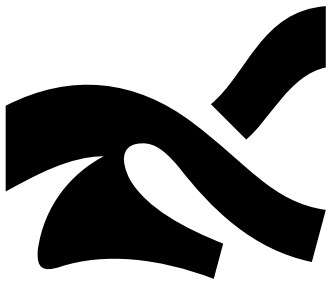

A4 · Joined Thresholds
DEVELOPED PREMISE

Scale limit — Cross holds at 16 px; threshold is clearer at 24 px and above.
Native-size proofs and application studies are in the interactive review.

DWELLING AND EXPRESSION

B Passing Shelter

POSITIVE

REVERSE

Tabernacle of Praise

THE IDEA

Passing surfaces make a sheltered interval and release upward through the same construction. Gathering and expression belong to the same fold.

THE OPEN QUESTION

Wave, bird, or folded fabric can lead before dwelling. The held interval needs enough scale to be understood as a shared place.

CONSTRUCTION & NEGATIVE SPACE

The return is integral to the shelter. A passing cut keeps the two surfaces visibly apart.

Sheltering surface and integral return

Rising continuation at the passing cut

Integrated held interval

ALTERNATIVE PREMISE

B3 · Breathing Court
ALTERNATIVE PREMISE

B5 · Common Bearing
ALTERNATIVE PREMISE

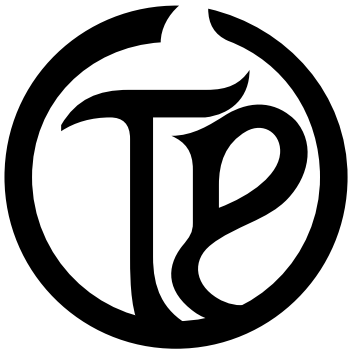

B14 · Passing Shelter
DEVELOPED PREMISE

Scale limit — 24 px better preserves the held interior; 16 px favors the wave reading.
Native-size proofs and application studies are in the interactive review.

C CONTEMPORARY ECCLESIASTICAL EMBLEM

The Joined Roundel

POSITIVE

REVERSE

Tabernacle of Praise

THE IDEA

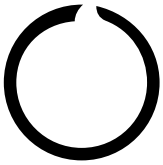

An open roundel holds crafted T and P initials. Enclosure and a returning letter contour connect dwelling with the name's response of praise.

THE OPEN QUESTION

The roundel and initials may suggest a university, heritage institution, or luxury identity. Its ring can feel decorative rather than essential.

CONSTRUCTION & NEGATIVE SPACE

The roundel and the original T/P paths are separate, related contours.

Open enclosing contour

Crafted T and P

Complete roundel

INITIAL CONSTRUCTIONS · 3 DISTINCT PREMISES

C1 · Common Bond
ALTERNATIVE PREMISE

C2 · Response Medallion
DEVELOPED PREMISE

C3 · Coupled Banner
ALTERNATIVE PREMISE

Scale limit — 32 px is the more credible TP test; tiny letters and reverse crowd.
Native-size proofs and application studies are in the interactive review.

Tabernacle of Praise

POSITIVE

Tabernacle of Praise

REVERSE

Tabernacle of Praise

THE IDEA

Enclosed bowls and rising counter floors repeat across the actual letters. The complete name carries the identity through one consistent letter grammar.

THE OPEN QUESTION

The familiar serif base can feel editorial or bookish. Custom details are restrained and do not make the Christian association explicit without the name.

CONSTRUCTION & NEGATIVE SPACE

Six original letter drawings: T, P, a, e, r and f. Other letters retain licensed Source Serif 4 outlines.

P

Originally drawn P counter

a e

Related a and e openings

TPaerf

D3 · Inscribed Response
ALTERNATIVE PREMISE

Scale limit — Tested at 320/240 px wide. A very small avatar remains unresolved.
Native-size proofs and application studies are in the interactive review.

E CADENCED WALL REIMAGINED

Opening Measure

POSITIVE

REVERSE

Tabernacle of Praise

THE IDEA

One joined architectural face enlarges its openings as it turns. Cadence comes from changing openness within the dwelling, rather than separate rising buildings.

THE OPEN QUESTION

A sculptural property or product emblem remains possible. The large interior can still suggest a flame; finer cadence weakens at tiny sizes.

CONSTRUCTION & NEGATIVE SPACE

One compound face. Real removed material makes the openings; the lower threshold stays open.

Architectural mass before cuts

Measured cuts — removed material

Joined face and shared interior

INITIAL CONSTRUCTIONS · 6 DISTINCT PREMISES
